School children program at Nammivanipeta dated on 18-12-2019

The use of technology in early-childhood **encourages development of hand-eye coordination and fine motor skills**. One example of this is online games, many of which depend on the speed of movements. Many computer games also encourage attention to detail and the ability to put together clues that can solve a problem. So we WENT TO SOME SCHOOLS AND aware them about new technology and internet and their uses . to enhance them in a good way

Event-32,

New Technologies transfer to school children dated on 28-2-2020

Using technology to enhance learning is an incredibly exciting idea, and as an area of education is growing fast. Blended learning, mobile learning, connectivism, and other increasingly popular ideas all owe their existence to technology. But the reality is that the majority of public schools in the United States are less than cutting edge.

NSS program food ingredient distribution to adopted village

DONATION DRIVE -UNNAT BHARAT ABHIYAN 50 members on 2-6-2020

Providing food for people will satisfy their needs and giving food or donate with some of the people may help them and make them live for another day. Donating food to the people or organizations helps counter poverty and hunger. We all wish we could do more to support underprivileged serious patients facing challenges and their caregivers, beyond our prayers. Majority of them decide to stay hungry to save money. Feeling about the poor and feeling their tragic situation, it breaks our heart to see them suffering without doing anything so helping poor is a morale thing to do it makes us feel good of ourselves, that we are really doing something in this world, making a change in someone's life.

Food distribution of **500 packets** for adopted villages by our ANITS Principal Sir Prof T.V. Hanumanth Rao , Chief guest and NSS Programme Coordinator of Andhra university Prof.Harinadh babu our college NSS Coordinator –Dr.K.Satyanarayana Our college A.O –Santhosh Garu , Medical College Staff and **50 NSS Students** participated in food ingredient distribution participated.

Event- 28,

Swachh Bharat dated on 25-7-2019

accelerate the efforts to achieve universal sanitation coverage and to put the focus on sanitation, the Prime Minister of India had launched the Swachh Bharat Mission on 2nd October 2014. Under the mission, all villages, Gram Panchayats, Districts, States and Union Territories in India declared themselves "open-defecation free" (ODF) by 2 October 2019, the 150th birth anniversary of Mahatma Gandhi, by constructing over 100 million toilets in rural India. To ensure that the open defecation free behaviours are sustained, no one is left behind, and that solid and liquid waste management facilities are accessible, the Mission is moving towards the next Phase II of SBMG i.e ODF-Plus. ODF Plus activities under Phase II of Swachh Bharat Mission (Grameen) will reinforce ODF behaviours and focus on providing interventions for the safe management of solid and liquid waste in villages . so our ns team with some students we clean our collage and other places.

2k walk dated on 6-3-2020

31.2k walk- 100 students

Walking is a great way to improve or maintain your overall health. Just 30 minutes every day can increase cardiovascular fitness, strengthen bones, reduce excess body fat, and boost muscle power and endurance. It can also reduce your risk of developing conditions such as heart disease, type 2 diabetes, osteoporosis and some cancers. Unlike some other forms of exercise, walking is free and doesn't require any special equipment or training. We have many known and unknown uses by walking . so we organized a 2k walk event .

VILLAGE household survey at SANGIVALASA village:

Taken initiative and collected the data related to village survey. Our students have participated in household survey two times a week. Through the survey ANITS - UBA team found that these villages viz. have lot of potential in terms of virtual education for school children, rain-water harvesting and portable drinking water facilities. By providing this the basic needs such as health care, energy, livelihood, and education are locally met.

To work in tandem with the imperatives of sustainable development which are being felt more and more acutely all over the world and to serve the demand for eco-friendly development of the villages and creation of appropriate employment opportunities locally, the funds allocated by UBA are appropriately put to use in activities like village survey , household survey, providing technical support for rural development in the aspects of Rain water Harvesting , Portable drinking water , Solar electricity , Plastic free sanitation, education, agriculture, water management, waste management, technological innovation, digital literacy, organic farming, promotion of government welfare schemes like Swatch Bharat, Beti Bachao Beti Padhao, National Education Policy, Plantation, Health Camps, Yoga Awareness, Covid-19 Awareness etc.,

School children program at Nammivanipeta dated on 18-12-2019

The use of technology in early-childhood **encourages development of hand-eye coordination and fine motor skills**. One example of this is online games, many of which depend on the speed of movements. Many computer games also encourage attention to detail and the ability to put together clues that can solve a problem. So we WENT TO SOME SCHOOLS AND aware them about new technology and internet and their uses . to enhance them in a good way
