Hi,

Hope you had a good mock experience and sorry for applying pressure on you in the interview. Please try to concentrate on below point:

1. Tell me about yourself is the most important part in the interview process. You should include all your achievements, skills, works done.
2. It is very important to know all the details that you have mentioned in the resume.
3. It is great that you know the basics in Python Programming. But you should try to apply the concepts more and learn more about t

Example: If anyone asks you about lambda function try to explain it in a simpler way, Lambda functions are one time functions and Single  
syntax: lambda value : value \*\* 2. For every value it will return square of value

4. Learn about 2-3 subjects and say that those are your favorite subjects and make sure you know the basics about these 2-3 subject
5. Also while mentioning Strengths, think of an example why it is your strength.
6. While mentioning Hobbies, Think of how hobbies will help you in your career.

That's it from my side. Prepare well for the interviews.
