

Student Satisfactory survey (2018-19)

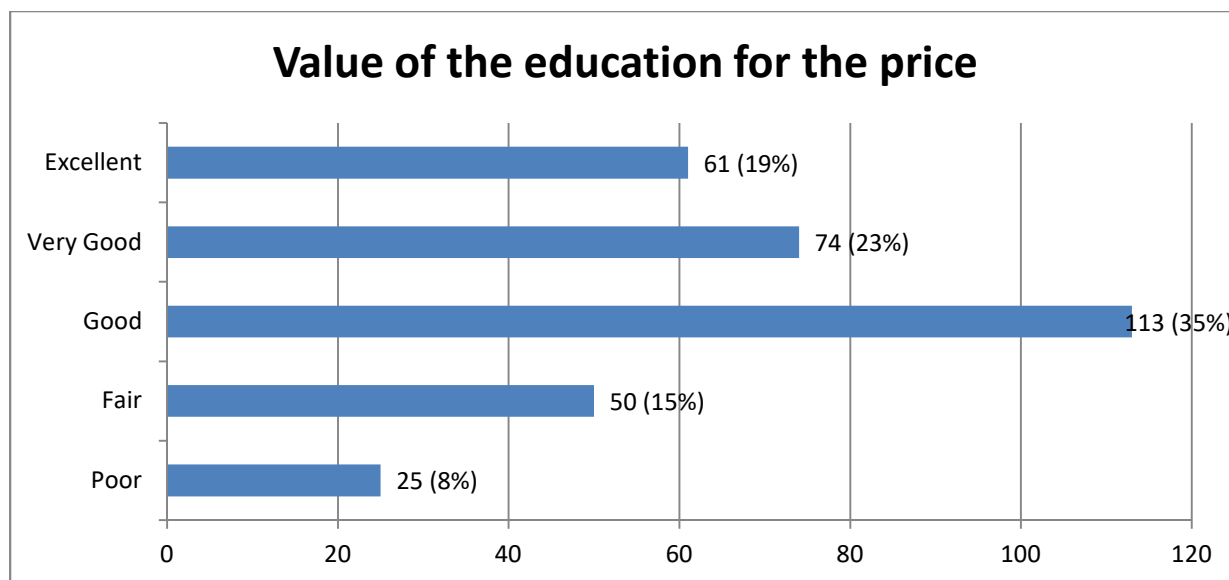

Total students: 323 and percentages are rounded

1. How would you rate the following aspects of your educational experience?

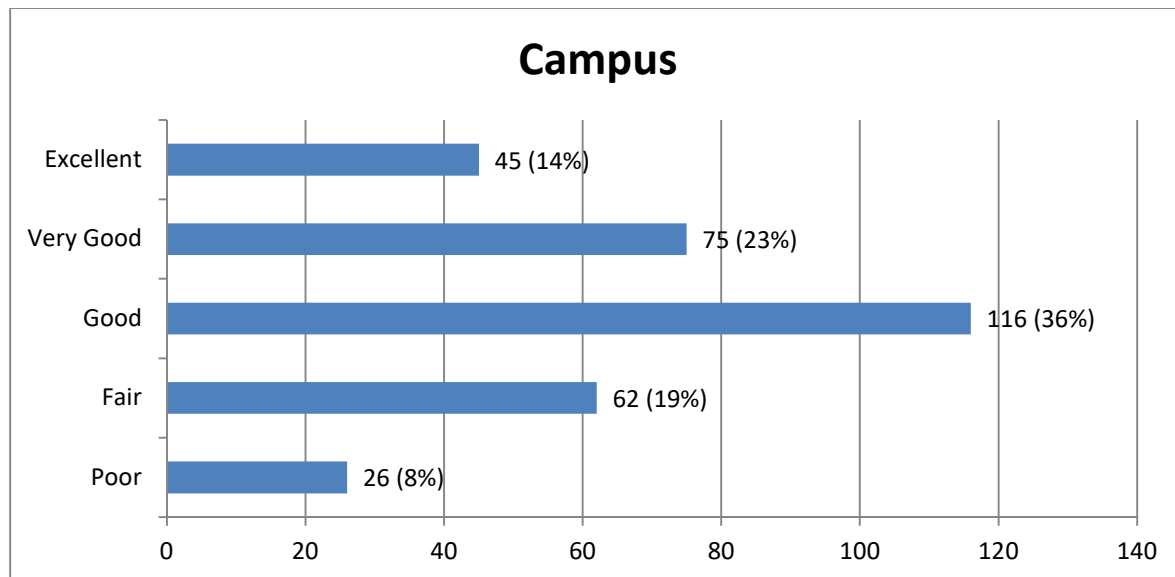

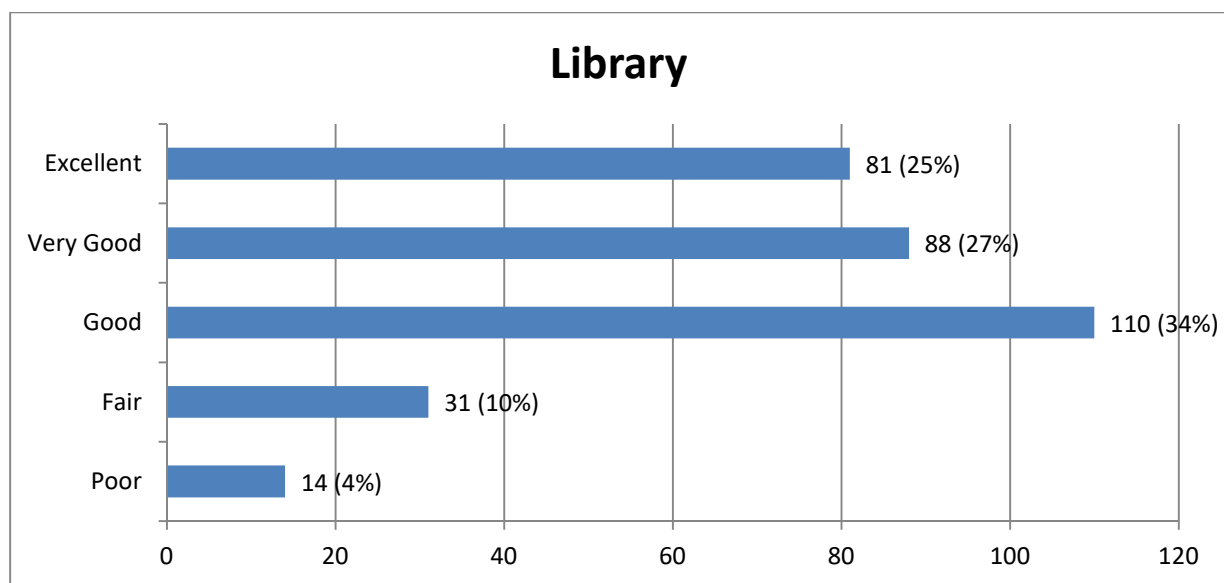

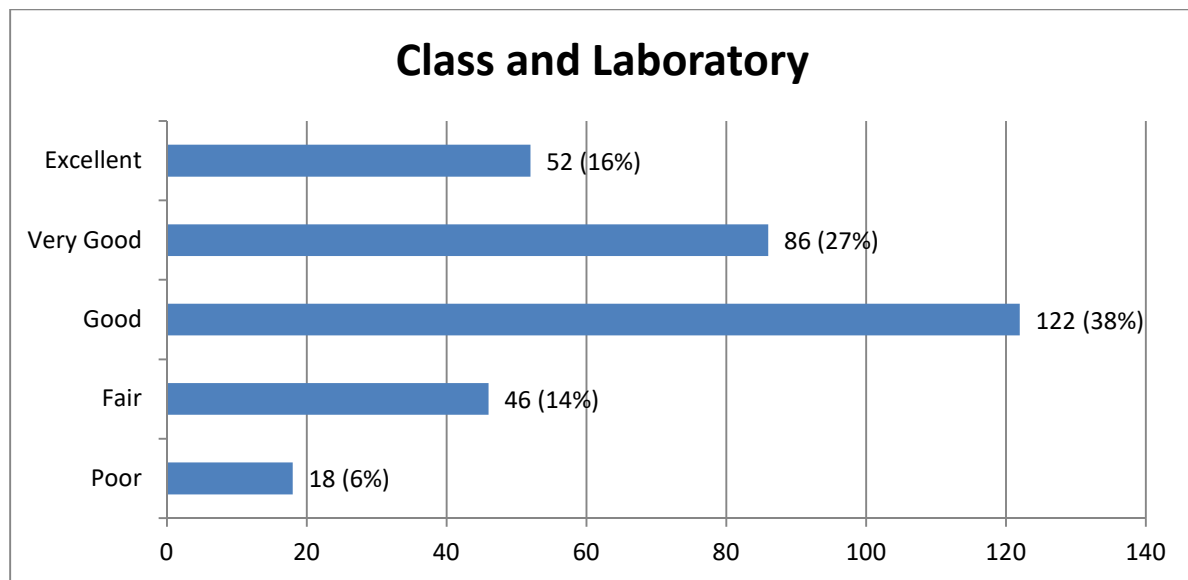

Is there anything else you'd like to share about your level of satisfaction with your educational experience?

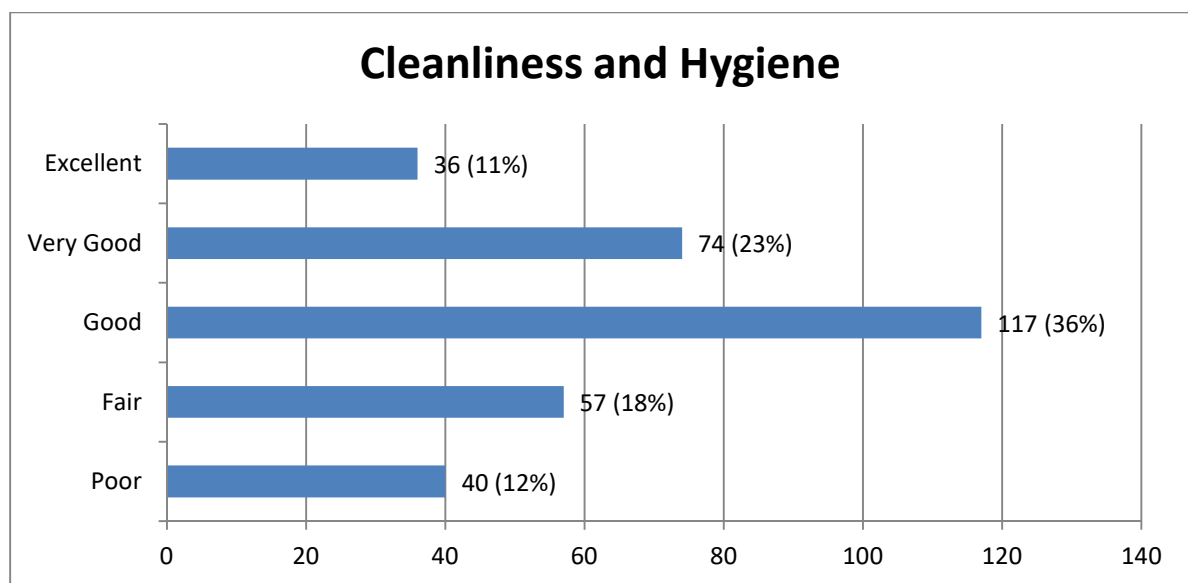

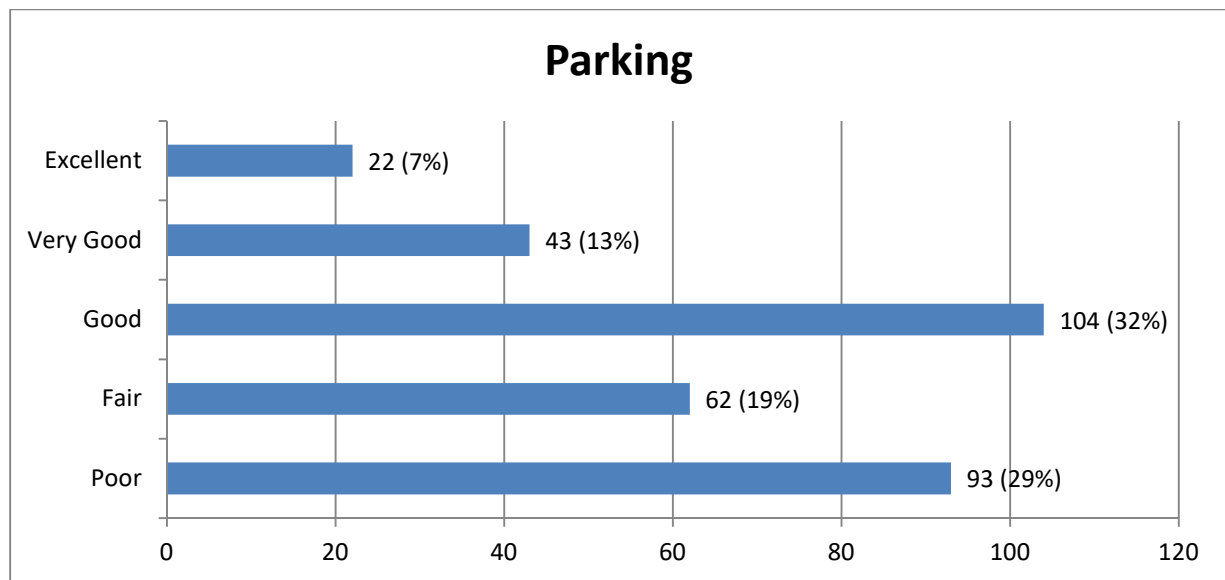

Placements of the college could be even better (Currently average). More faculty from top institutions like IITs and NITs could be recruited.
no,everything is good
It would be better if newer technologies are included in the curriculum.
Whatever we learn is just theoretical and we have less space in platform to implement them practically. Of course the lecturers are giving their best to us and we are happy for that. We need extra college hours for GD's of academics.
level of satisfaction is above average.
No I don't have anything to share.
No i don't have anything to share
really good at teaching
it would be helpful if the bus faciliy is provided for industrial visits which is planned only once in 2 years.
education is giving their importance
there is nothing to share
It is like school taking extra classes,
It would be good if there is chance of seeing or experiencing face to face
yes i was satisfied
no extra curriculum activies support
yes i was satisfied
yes i was satisfied
It is better if we improve our facilities like projectors in classrooms,labs. There are no sufficient computers with internet in e-library. It is really nice if our college had NCC and proper play ground.
My satisfaction about your education is very good
It would be better if faculty encourages students more.
I advice you to implement indutrial tours to make people learn practically.....
sir i would like to say that everything is good
it's better to include technical subjects

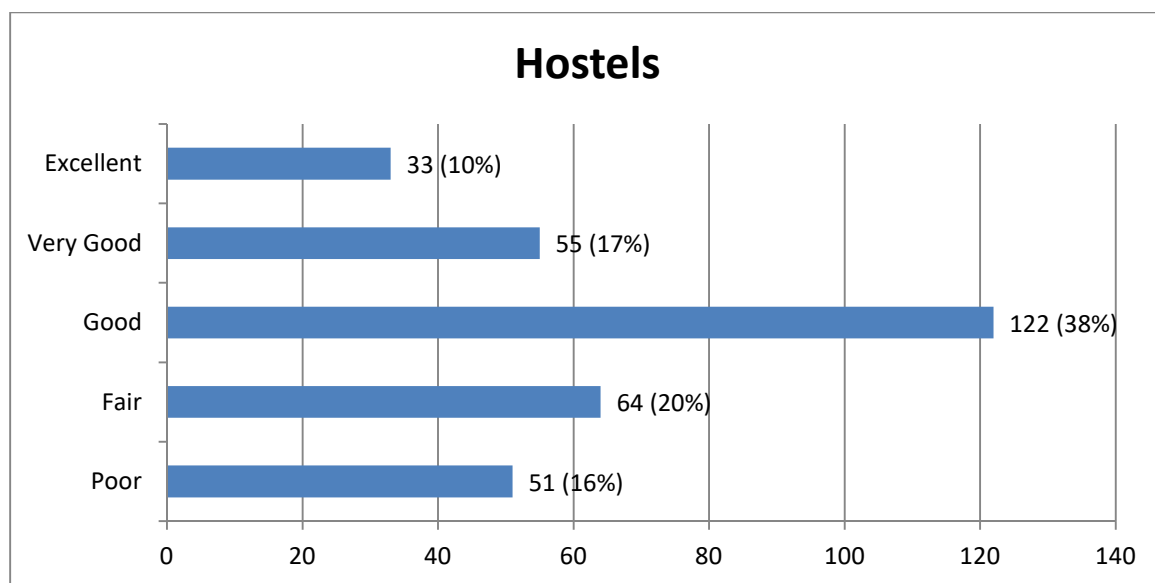

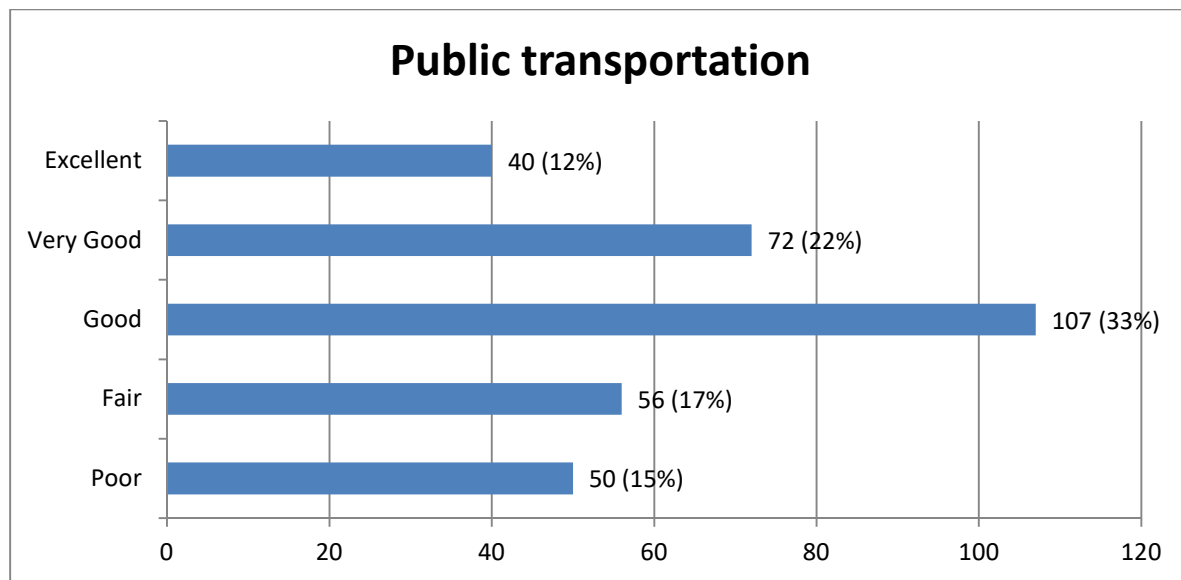

Way of teaching should be changed. It would be better if things are practical rather than theoretical.
Nothing is there to suggest
everything can be satisfactory but always a silly thing or two are making the overall experience poor
improve of updated courses of particular department
improve education standarads
to be developed in the way of dealing with students
There's more importance to bookish knowledge and written stuff than to true knowledge. A person who copy-pastes assignments is given more respect and value than a creative student. This will not lead to a smarter country.
to improve practical experience in the way the students can achieve knowledge to work on technologies more.
Quality and way of delivering subject should be clear
NO, everything's very good.
i am not satisfied in this college
good,I am satisfied .
Maintainance of projectors in the classrooms should be much better and immediate and good response is expected.
everything is fine but no sports period
the teaching of every teacher is excellent
improve academic reputation of college
Advise about other activities must be improved not only academics
please provide some materials of cse in department only
I think there must be some extra courses for latest technology learning and flexibility in curriculum hours.

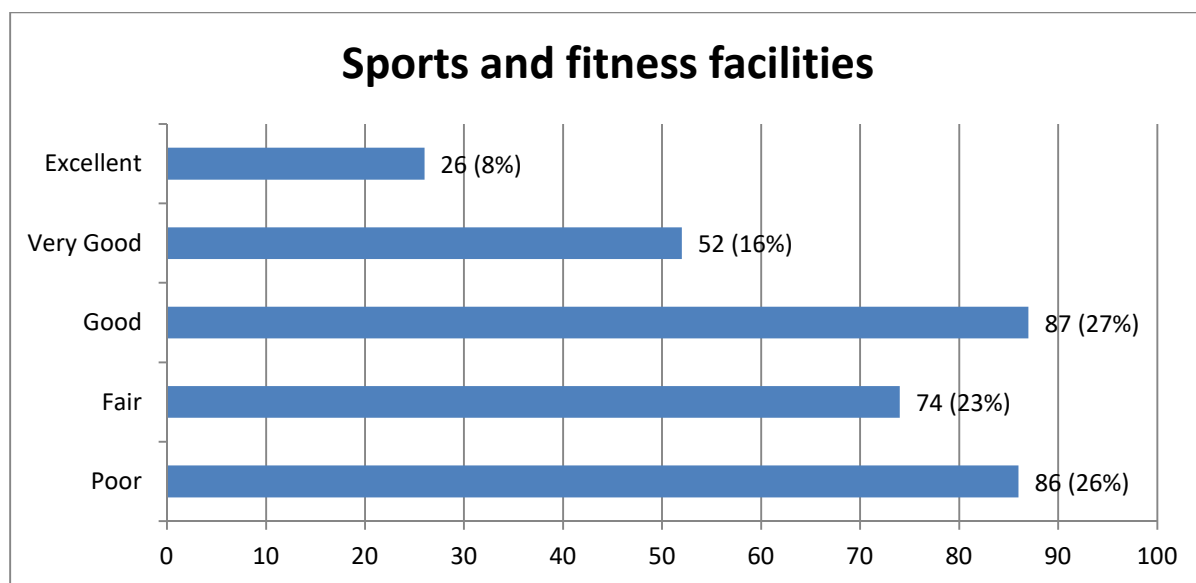

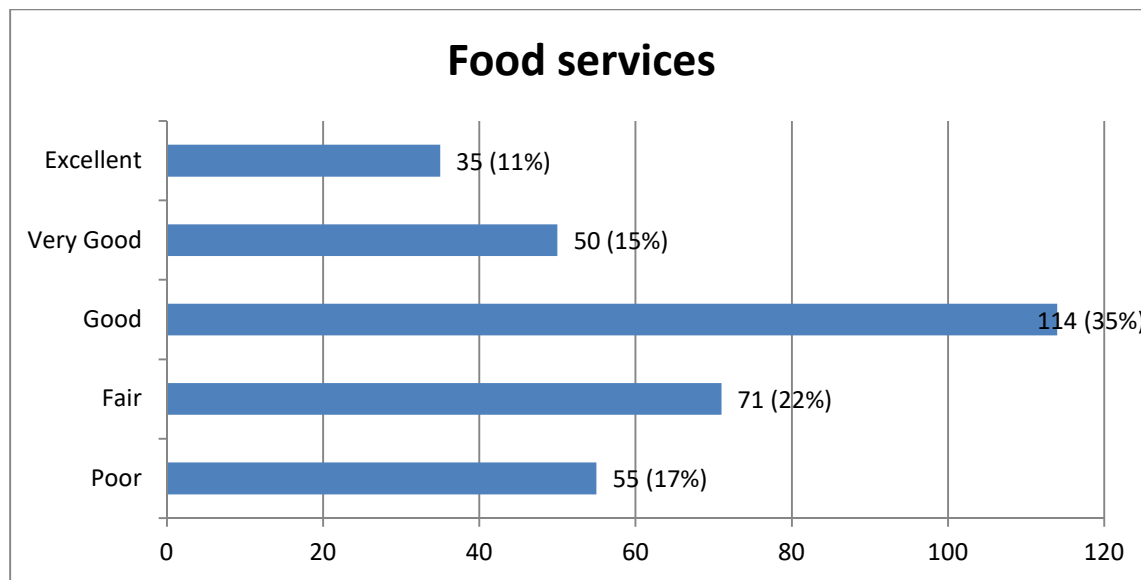

2. Count of How would you rate the following services / facilities at the college?

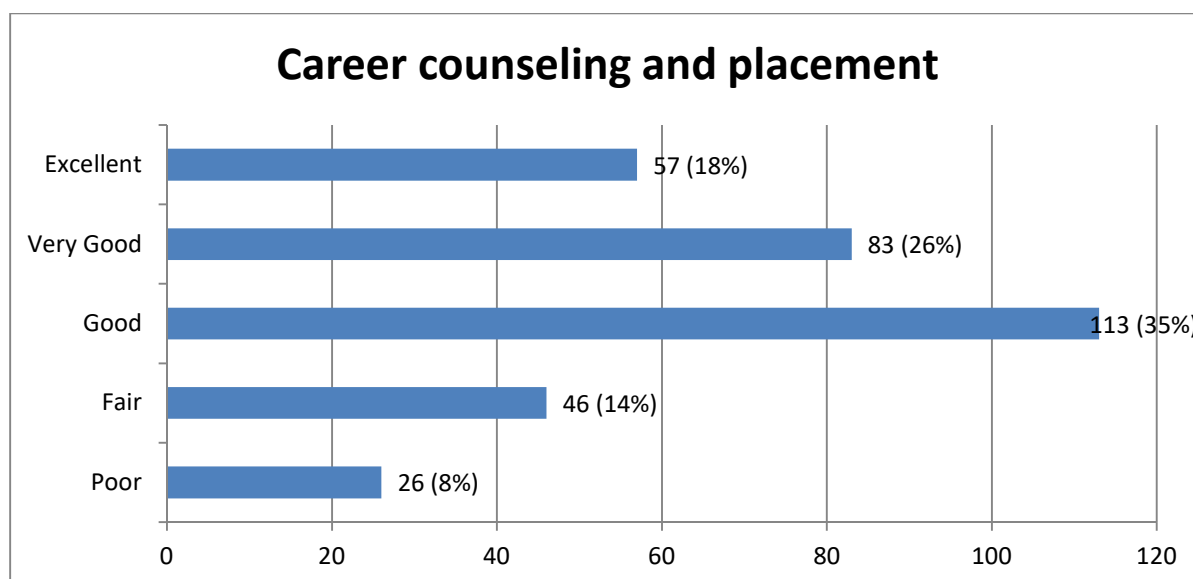

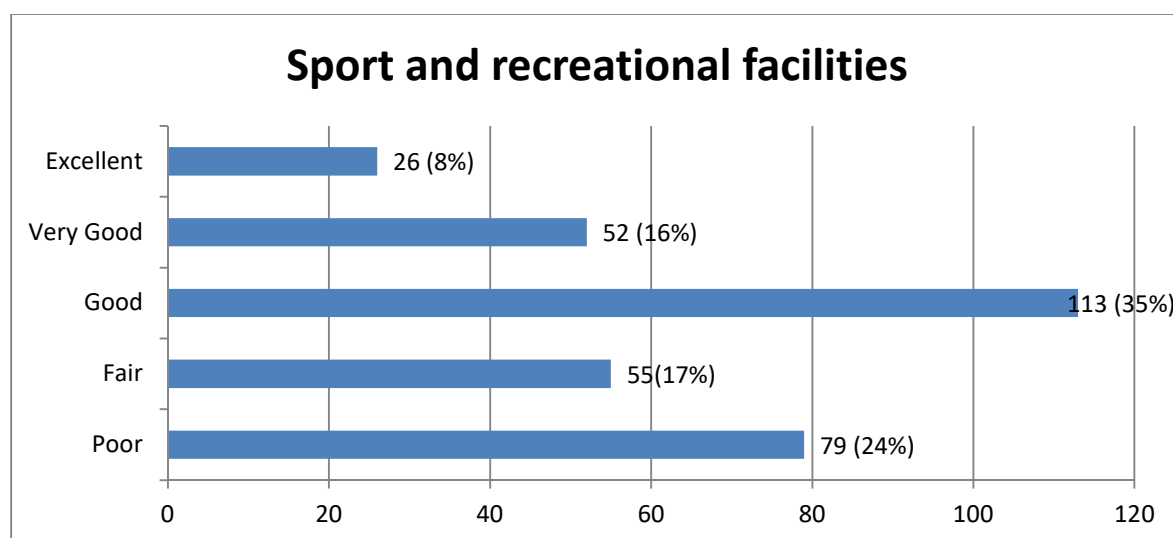

Is there anything else you'd like to share about the level of satisfaction with our support services and facilities?

Students should be given WiFi password for the academical progression. Washrooms arnt that clean. Lab equipment are ages old. new equipments need to be employed (ECE labs and some labs of EEE).
there's a problem with the hygiene and cleanliness
Food quality is very bad and very bad quality
At times of rainfall the path from back gate to the departments is flooded with drainage water ,it is inconvenient to walk in such dirty road.
I need more greenery in our college. I hate people trimming the plants. We need indoor plants which gives more oxygen in our departments and more ventilators and exhausts to our washrooms. There is no proper water facility in washrooms.
really worried about campus placement
very back in conducting activites
Students are facing difficulties to use library as it is placed in the top floor of civil and no sufficient books are available with respect to the number of students required.
no I don,t have anything to share.
may students are facing problem to go to library as it is in 4th floor .
No i don't have anything to share
repair works should be done immediately
students should be allowed into the lift for the library
we would be grateful if the parking space is increased and proper access to the library and the allowance for using the main grass ground .
nothing to do any facilities
As on the point of library,it is very dis comfortable to the students to climb 5 floors.Due to this students are not even intersted to issue the books
yeah we experienced good support from non techincal faculty
dissatisfied with transportation facilities, very poor. Need to change this process. Reduce the cost of transportation fees
Very dissapointed with the college hostel facility. very unfair fees structure.no proper maintenance . very worst food maintainence.

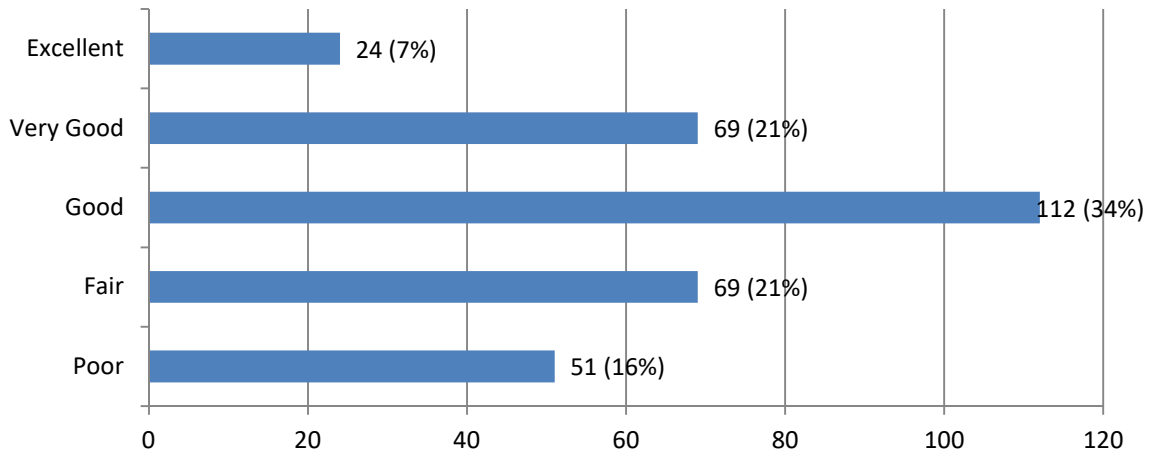

we need more facilities for sports like basketball and badminton
there is nothing to share
there was nothing to share
there is nothing to share
there was nothing to share
The Food provided for hostelers is really bad.It is only good on paper just to show the menu. Lodging is good. WIFI in BOYS HOSTEL is really bad, the speed is very slow.There are no sufficient Routers and we have some rooms where we don't even get the signal. It is very good if we change our WIFI timings like getting WIFI in early morning or WIFI at hostel except during college hours. Sir this is really serious issue, please consider.
Is our campus really good? NO Please do something about the campus sir. The road around the Civil department is the worst!! We just cannot go to canteen when it rains Please do something about the insects near stores. We don't want to eat the insects too Our dept's washrooms are the worst!! We don't have proper dustbins to throw the waste in washrooms. Also,who assigns a male cleaner to clean the ladies washrooms?? Coming to our laboratory, Our main lab is the worst nightmare. Not even a single AC works properly Please change the AC's sir. We just cannot sit in the lab and suffocate ourselves to hell!!
Your support service and facilities are excellent
All are good. Please once think about the water facility. Although we are all having a facility of cooling water in every department but, we don't know whether it is a mineral/purified water. Please take a look about to supply mineral water so that student's will feel better than much now and no one will get's sick. And the another one about sports facility, we have only one room for indoor games. Only some people are playing daily. The rest are going with disappointed. I think it's a fair facility in our college about sports room.
our labs are very unhygienic .we could see fungus on the curtains.we dont even have projectors in our classrooms. we put forward a letter before but there is no response as of now. every time we require a ppt presentation during the lecture we are supposed to shift to some other classroom.
please make the toilets some what clean and hygiene.....and proper water facility
sir there are some problems like the projector does'nt work in some classes
to provide more facilities
we hope that the library is shifted to a place where every student can climb up
hostel food is not properly cooked
need to improve the class room facilities like fans .
Many faculty are just presenting the slides in projectors. The quality of teaching should be increased. Instead of making us directly write the notes, its better to make us experience or implement things practically.
Nothing is to suggest
services and facilities are just there for mandatory,atleast thats what every student feels...no cement roads,everything is muddy and slushy,bad odor int the corridor due to bathrooms,,cleanliness is not at all reaching the basic mark...and many more...
we are facing difficulties while going to library we would feel happy if students are also allowed to use lift for going to library
classroom facilities improvement
I would like to request for campus selection for our related subject.
It is necessary to provide students a good internet(wi-fi) throughout the campus.
prioritize the extra circularactivities and sports
the way of treating the students has to be taken in a proper way.
sports and parking is not satisfactory
Library is located in 5th floor which is difficult to visit regulary.

There is no safe student car and bike parking available. There is a need for it as the vehicles are being parked outside with great risk and are prone to danger and also cause traffic blockage.. Also the toilets in our dept. are very unhygienic and non-functional. Water is never available to flush and there are many leaks.
Services are clean and good
No,everything''s good
i am not satisfied in this college
good,I am satisfied.
We expect you to maintain our playground with much care because education not only means class room education but also physical education. Library is in the 4th floor and it is not easy for everyone to climb all the up whenever required. Few more buses should be allocated or intake of students into buses should limited having a look into the number of faculty already in the bus as the present situation in the buses are very congested.
Please provide some more facilities for sports and fitness and make sure that the sports room is open for more time.
facilites provided in the clg lab and clg buses are very poor
everything is fine but no cleanness
i am hosteler. i was suffering from acid insects,we are getting rashes on skins.we informed to our warden he didnt take any action and food is just average ,about our class room-we have dropped our complaints in suggestion box but no reply among them
improve sport and recreational facilities
I'm facing a difficulty with college bus. I'm a student of 'A' bus and I've entirely paid the fee inspite of which I am unable to have a seat and I'm adjusting everyday either by standing or sitting as a fourth person in a 3-seater.
please provide wifi facility in college

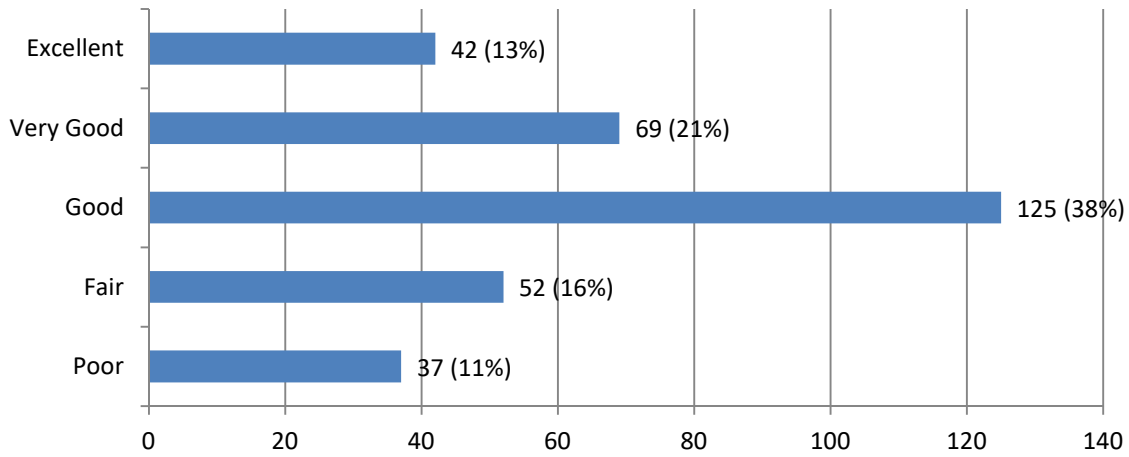

3. How would you rate the following aspects of student life at the college?

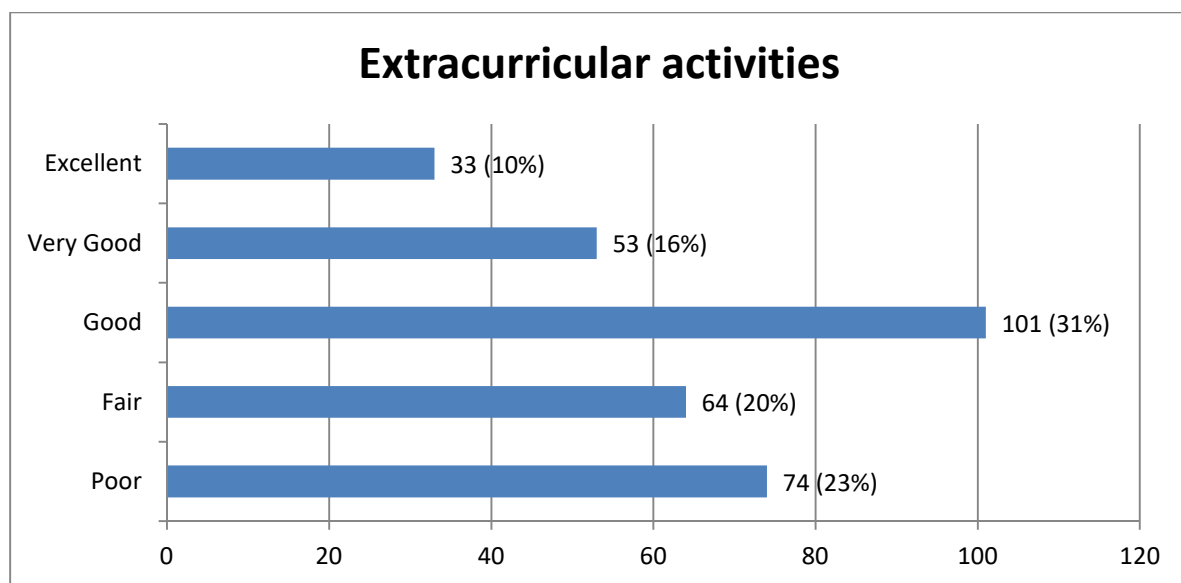

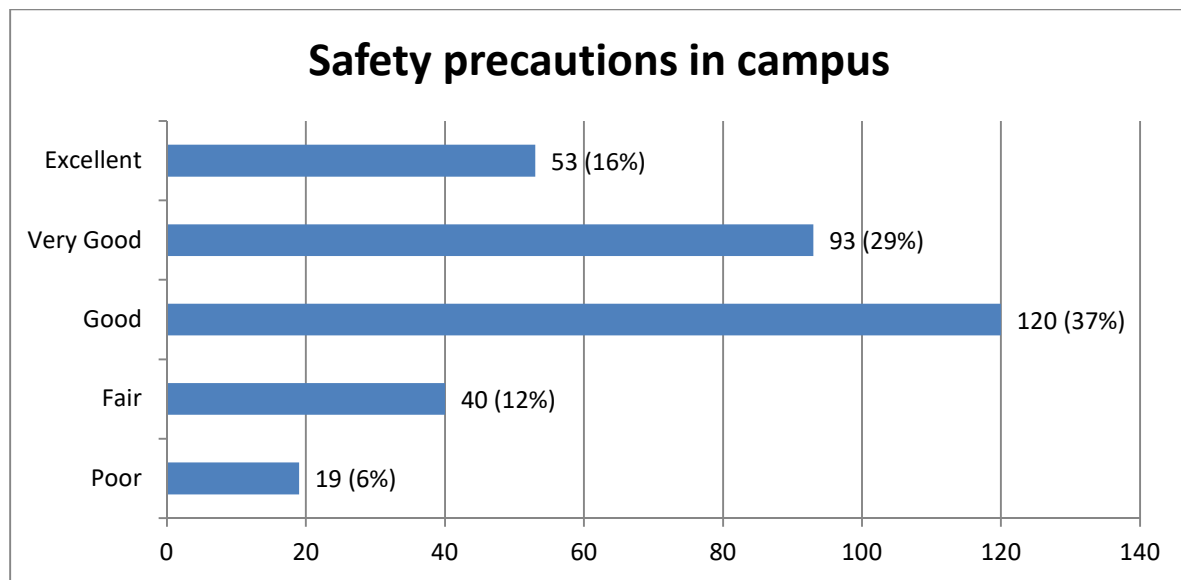

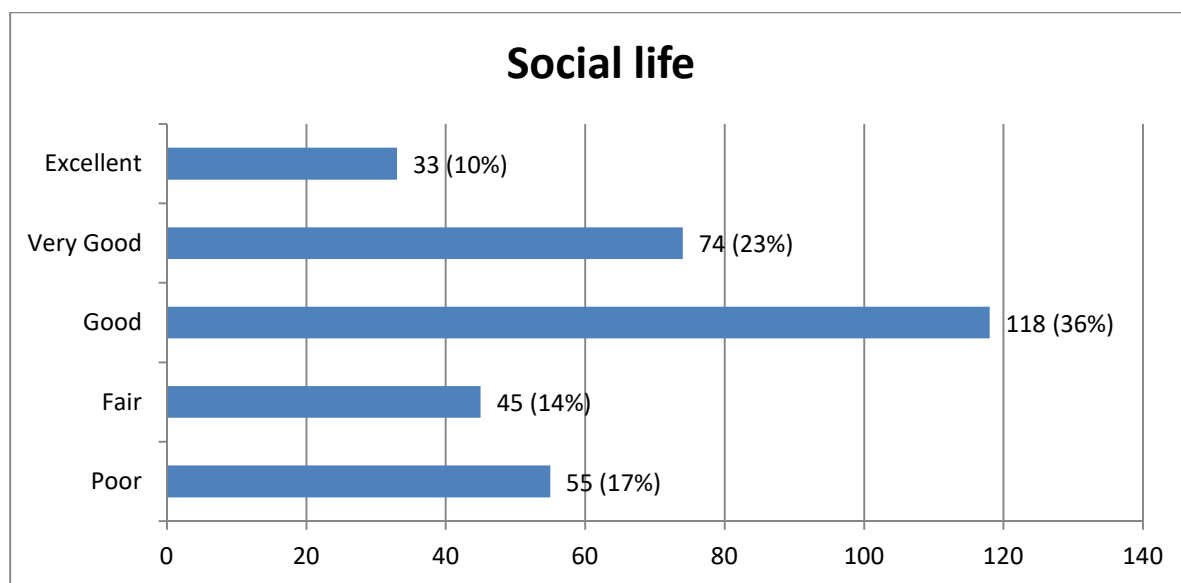

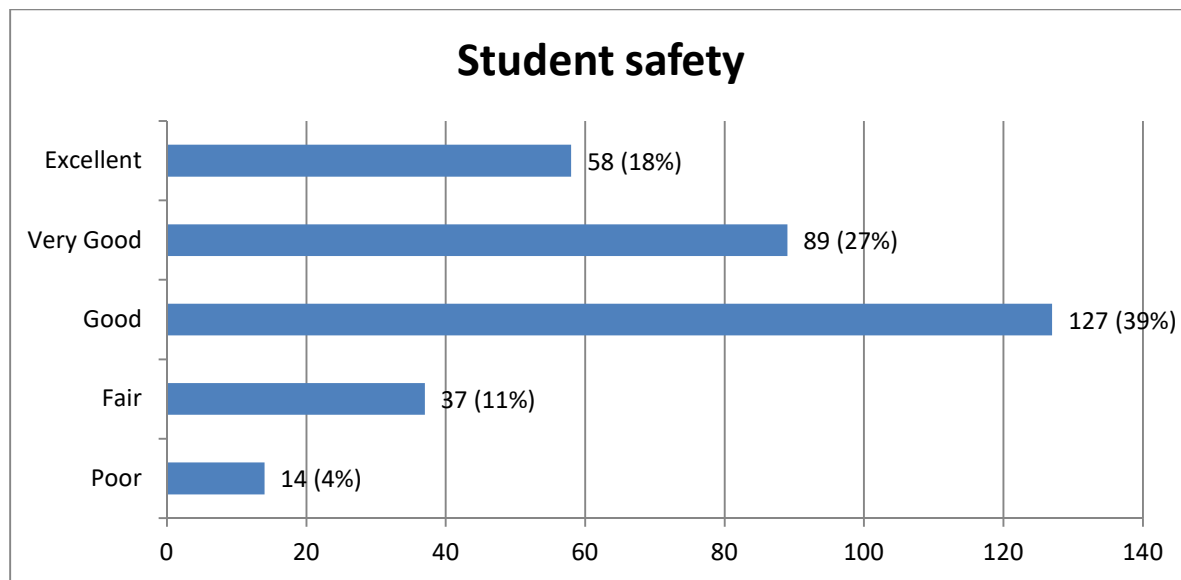

Clubs and student organizations

Student diversity

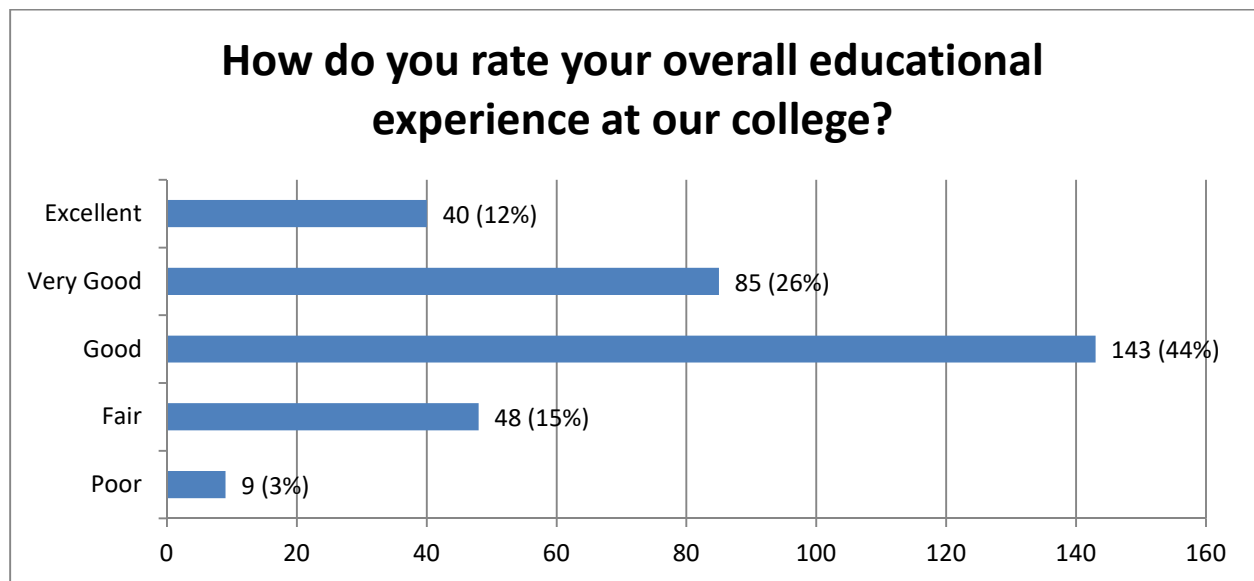

Is there anything else you'd like to share about your level of satisfaction with your campus life?

Extra curricular activities and clubs should be given equal importance with academics.
nothing to say ,its coming out now ...the clubs are pretty active
There is no exposure for the students. There is no college type of culture nor any professionalized behavior among the students. All are frogs in well and there is no proper encouragement to the clubs and events organized.Academically this college of ANITS is the best but students have to learn that they things can do more than studying.
should conduct extracurricular activites more.
no I don,t have anything to share.
No i don't have anything to share

extra hours for sports and nss should be provided
sometimes the washrooms are not up to mark. the water supply is cut atleast once in two days.
it is excellent to be join in this campus
as all over all experince is good
it needs to be improved
can't recommend my relatives to join in this college.
need more extracurricular activites
there is nothing to share
campus life was good
campus life was good
yes i was statisfied
<p>safety precautions on campus</p> <p>It's very good that fire extinguishers are kept in each and every department and in each and every floor. Why to waste so much time and energy just to showcase something? Yes, these fire extinguishers are just for showcase. I am sure that you are aware of the fire in IT dept also I am sure that you are aware of how big the accident was. Did the fire extinguishers came of any use in this incident?</p> <p>ABSOLUTELY NO!! They are just a piece of showcase to show the govt!!</p> <p>And coming to social life</p> <p>Please teach the faculty members to not to interfere in any students social life</p> <p>We are 21 and we know how to handle ourselves!! Where are all the faculty members when a student is on verge of committing suicide?</p> <p>To all the faculty members, if we really need your help we will come and ask you please don't interfere in students personal life!! There are other students who are doing horrible things than just bunking classes. You don't have any right to insult single student in front of the whole class. You never know what they are dealing!!</p> <p>This is for one of the IT faculty who always takes time to insult the students he don't like!!</p> <p>And one more thing sir,</p> <p>I think you are aware of the problems faced by civil dept students especially girls</p> <p>There is this professor who is triple of our age who constantly misbehaves with his girl students. I cannot get into details. I hope you do something about this issue</p>
In your campus all the facilities are helpful to get good opportunities to survive
its really a nice environment
very happy with ANITS
Placements count is reduced
need to improve the social life values by conducting events
benches of our class was not good and full of dust
Facilities should be provided more. Its hard to find where the PT sir is. Its better if he is available all the time.
Nothing is there to suggest
not even barely satisfactory
when there is rain the overflow of water near bus area,,and the road near civil dept is some getting overflowed with water and we are not able to walk
partiality between students who study well and the ones who dont,faculty discourage the slow learners all the time and make them more low
some improvements required
please conduct a clg tournments of all sports.
maintain good ground
have to develop a lot in the campus

to improve clubs and student organizations and extracurricular activities.
Sports and extracurricular activities must be encouraged a bit more
need to establish clubs on designing and developing games and software
i am not satisfied in this college
Parking is not good for our vehicles
I am satisfied with my present campus life.
Playgrounds should be properly maintained like the basketball court lack in rings,ground is full of pebbles etc.
Please provide more ground facilities and encourage students who are really interested in achieving their goals.
ewwwwwwwwwwwwwwwerrrrrrrr
nothing all the ting about this are perfect
improve social life
Non-uniform on saturday
please make interaction of juniors with seniors
u can give clean and pure educational system with no conditions ,eng college is not a school ,its a graduation college
