Summary Report on the Seminar on "Emerging Technologies-Being an Industry Ready Graduate", 16-Nov 2019

A one day seminar on "Emerging Technologies-Being an Industry Ready Graduate" was organized by department of Information Technology, ANITS on 16/11/2019 Sri.T.Jignesh Co-Founder & CEO, Perspect AI.

As the transformational impacts of technologies continue to play an increasing role in our lives, a better understanding of the social, economic, legal and environmental impacts of emerging and digital technologies is critical to optimizing their use, and to ensuring equitable access to meet the needs of people.

The main aim was to review on latest Technologies and applications for making statistics more popular and accessible. There were more than 300 students of Information Technology and Faculty members of IT, ANITS. Prof.T.V.Hanmunatha Rao, Principal, ANITS, Prof.P.Padmaja, HOD, IT department addressed the gathering & motivated the students of Information Technology for enriching their knowledge.

The keynote Speaker T.Jignesh has delivered latest Technology about Virtual reality (VR). It is becoming increasingly accessible with developments in technology, making headsets and software development more common to meet education and training needs. This report will provide an overview of the components of VR which are critical to the experience of the viewer. Some of these components, such as the Head Mounted Display (HMD), can provide various degrees of immersiveness depending on the quality of the hardware used (various models are discussed with more information).

The seminar was around 5 main themes for the presentations that covered the following topics:

- **Learning** – Learning is the process of acquiring new, or modifying existing, knowledge, behaviours, skills, values, or preferences.
- **Initiate** - to tell someone about something or show them how to do something.
- **Problem Solving** - the process of finding solutions to difficult or complex issues.
- **Converging & Diverging**
- **Multitasking**
