ABOUT THE COLLEGE

Andhra State Institute of Technology and Sciences (ANITS), Visakhapatnam was established in 2001 by Andhra State Educational Society (ANES). ANES works to promote technical and human values through various educational institutions, without any motive for profit. ANITS is located in Sangivalasa village of Sattenapalle mandal, about 30 km from the beautiful city of Visakhapatnam. The college has been accredited by NAAC, NBA, UGC and attained autonomous status in the academic year 2015-16. The college has been awarded "Centre of Excellence" by Infosys Technologies in the year 2011 and "National Employability" in 2014 by Aquring Minds, New Delhi. Undergraduate and postgraduate programs in CSE, IT, EEE, ECE, Mechanical, Civil and Chemical Engineering are offered. With a unique team of governing body, inspiring management, and proficient educators, ANITS environment to emerge as a world-class technical institution whose products represent a good blend of technological excellence and the best of human values.

ABOUT THE DEPARTMENT

The Department of Chemical Engineering was started in the year 2012 and has an efficient group of faculty from IISc, IITs, BITS and other reputed state universities. The department is well equipped with Chemical and interdisciplinary laboratories.

...s research and development in ... systems knowledge and skills. The ... is imparted to the students in classrooms by conducting workshops, seminars and conferences to craft the next generation of engineers. Modern teaching methodologies are implemented to foster an improved classroom environment. The department envisions to emerge as centre of excellence in Chemical Engineering and attain global recognition in fulfilling the needs of industry and society.

ABOUT THE WORKSHOP

Indian Chemical Industries contribute to 6% of our GDP (\$ 135 billion). For efficient technological production of chemicals, a chemical engineer requires thorough understanding of the process that comprises of various equipment like reactors, heat exchangers, distillation columns, etc. and numerous instruments like pressure gauges, flow meters etc. **Process Flow and Instrumentation Diagrams** help Chemical Engineers not only to understand the underlying process, but also in evaluating various process controls to optimize the production and to safeguard against possible workplace accidents. This workshop aims at bridging the gap between the academic and industrial approach of studying and understanding the **Process Flow and Instrumentation Diagrams** by providing hands-on experience to the fresh chemical engineers to ... when they start working in the industry.

Programme Schedule

Day 1 (21-12-2018)	
09:30 AM	Inaugural
10:00 AM	Process Engineering Overview
01:00 PM	Lunch Break
02:00 PM	Pumps - I
Day 2 (22-12-2018)	
09:30 AM	Pumps - II
01:00 PM	Lunch Break
02:00 PM	Process & Instrumentation Diagrams
03:00 PM	Valedictory

Resource Persons:

Mr. G. Vijaya Kumar
